**OFFICE OF PETITIONS**

To the Commissioner for Patents:

The above-referenced national stage application became abandoned for failure to submit an acceptable oath or declaration within the time period set forth in the "Notification of Missing Requirements Under 35 U.S.C. 371 in the United States Designated/Elected Office (DO/EO/US) (Form PCT/DO/EO/905) mailed on March 12, 2001. On July 23, 2002, Applicant filed a "Petition to Revive an Abandoned Application under 37 CFR 1.137(b)" and "Response to Notification of Missing Requirements under 35 U.S.C. 371" and "petition under 37 CFR 1.183 to Suspend the Rules." Applicant's petition under 37 CFR 1.137(b) and applicant's petition under 37 CFR 1.183 were both dismissed without prejudice. On July 28, 2003, Applicant filed a

renewed “Petition to Revive an Abandoned Application under 37 CFR 1.137(b)” along with a “Petition under 37 CFR 1.47(b).”

Examiner rejected the petition to revive based on a finding that item (1) of 1.137(b) had not been satisfied. Specifically, the examiner found that a more detailed explanation of the delay was required before the petition could be granted. Applicant respectfully disagrees with this determination.

It is respectfully noted applicant’s petition for revival of the current application pursuant to 37 CFR 1.137(b) should be reviewed at a less burdensome standard than a petition to revive filed pursuant to 37 CFR 1.137(a). *See MPEP §711.03(c) (Rev. 1, Feb. 2003)* Although the *Manual of Patent Examining Procedure* (MPEP) does not set forth a specific standard of review for petitions filed under 37 CFR 1.137(b), the MPEP does indicate that “Petitions under 37 CFR 1.137(b) are less burdensome (statement(s) rather than a showing accompanied by documentary evidence) to file and are evaluated under the less stringent “unintentional delay standard.” *Id.* In addition, it has been similarly adjudicated that a petition filed under 37 CFR 1.137(b) was intended to provide for “a much less strict standard” than had otherwise been available. *See. In re Bryan, 2 USPQ2d 1215, 1218 (Dep. Ass’t Comm’r 1986).*

Furthermore, it is noted that during the promulgation of the provisions of 37 CFR 1.137(b) first providing for the ability to revive an application based on unintentional abandonment, in response to comments to the proposed rules, Gerald J. Mossinghoff, then Commissioner for of Patents and Trademarks discussed what was intended in the statement in § 1.137(b) that the Commissioner may require additional information where there is question whether the abandonment was unintentional. The Commissioner responded that, “Additional

information would be required only where there is an indication that the abandonment was intentional, for example, where an express abandonment had been filed. The record should be clear how such an express abandonment was unintentional if the petition is to be granted.” 47 FR 33086, 33094 (1982)

It is also respectfully noted that the applicant’s petition to revive the current application pursuant to 37 CFR 1.137(b) should not be reviewed with a requirement that there was an exercise of due care and diligence. In response to comments to proposed changes to 37 CFR 1.137(b) to remove the filing period requirements, Bruce A. Lehman, then Assistant Secretary of Commerce and Commissioner of Patents and Trademarks replied that “unintentional delay does not require that the delay have occurred despite the exercise of due care and diligence (as does “unavoidable” delay), the Office does not routinely require a “showing” of unintentional delay for a petition under § 1.137(b).” 62 FR 5312, 53161 (1997).

In the interest of full disclosure, however, Applicant has requested a detailed summary of all facts concerning each of the individuals that were in some way involved with the prosecution of these files. Specifically, Applicants have included declaration from (i) Shahan Islam, Reg. No. 32,507, who was the attorney responsible for this application; (ii) Cheryl Bajana, a legal secretary that worked with Mr. Islam and was responsible for opening and managing mail from the USPTO; (iii) Samson Helfgott, Reg. No. 23,072, a colleague of Mr. Islam who was aware of many of the technical details concerning the docketing database as well as the facts that led to the discovery of the inadvertent abandonment of this application; and (iv) Satnarine Seonarine, a docketing clerk with the law firm of Rosenman & Colin, LLP, who provided screenshots and images of the docketing entries (or lack thereof) concerning the abandonment of this application.

As these declarations provide, Mr. Islam does not recall being notified of the outstanding notice of missing parts or the notice of abandonment. Indeed, the notice of abandonment could not even be found in the file that had been set up for this application. (Decl. of Shahan, para. 8) This docketing oversight led to the initial abandonment of the application which was not discovered on June, 2002. (Decl. of Shahan, para.12). This petition was rejected as a result of a failure to reply to the outstanding office action. The decision on the petition, however, was not properly docketed as a result of a lack of experience by Mr. Islam's secretary and was not brought to the attention of Mr. Islam. Throughout this period, however, "it was never [Mr. Islam's] intention to abandon this application, nor was it the intention of the applicant, and [he] continuously worked on the inventorship issue in order to provide the necessary information to the USPTO." (Decl. of Shahan, para. 18) This issues were complicated by law firm mergers, technology integration issues, and docketing management challenges throughout the period. (Decl. of Seonarain, para. 4-6) These facts, as well as the supporting documents provided as exhibits to each of these declarations.

It is believed that applicant's initial petition filed on July 28, 2003, this renewed petition, and the facts set forth in each of the declarations (and documented, in part, with the attached exhibits) clearly illustrate that there was no deliberate or express action taken to abandon the current application. It is believed that the facts as set forth in the most recent petition filed on July 28, 2003 and in this request for reconsideration demonstrates that the abandonment of the current application was wholly unintentional. Thus, it is respectfully requested that applicant's request for reconsideration of its petition to revive the current application due to unintentional abandonment, pursuant to 37 CFR 1.137(b), be granted and the current application be revived and returned to examination.

Applicant is also enclosing herewith the requested documentation concerning the Petition Under 37 CFR 1.47(b) in reply to the Notification of Missing Requirements Under 35 U.S.C. 371. Specifically, the Examiner found that (2) of 1.47(b) was not satisfied as a result of the failure to include any documentary evidence concerning the attempts to locate the inventors. In response, the Applicant has again included a copy of the mailing receipts that demonstrate the failure of delivery and has further included a signed declaration from Mr. Islam concerning these attempts to locate the inventor. (Decl. of Islam, para. 9, 12) Unfortunately, documentary evidence concerning the internet searches and telephone inquiries concerning this search is not available as Mr. Islam did not retain any documents or screen prints concerning these searches. As such, Mr. Islam's declaration represents the best documents available to the Applicant's concerning these statements.

The examiner also requested a clean copy of the assignment as a result of the fact that the first copy was not legible. A clean(er) copy of the identical assignment (signed by the same inventor on a related application) is attached hereto to assist the examiner in reading the assignment of the instant application. As is clear, the assignment demonstrates the applicant's proprietary interest in the provisional application as well as includes an assignment of "the United States application [on such invention], and all divisions, renewals and continuations thereof, and all Patents of the United States which may be granted on any of the same and all reissues and extensions thereof, and all applications for industrial property protection, including, without limitation, all applications for patents, utility models, and designs which may hereafter be filed for said invention in any country....

It is respectfully requested that the current application be revived pursuant to this renewed petition and that the enclosed Petition Under 37 CFR 1.47(b) entered and considered for the above-referenced application.

A check and petition for a one-month extension is included with these materials. It is believed that no other fees are due with this petition. However, if any other fees are due with this paper, the Commissioner is hereby authorized to charge such fee(s) to Deposit Account No. 50-0792.

Please direct any inquiries regarding this petition to the Applicant's undersigned attorney, who can be reached directly by telephone at (303) 298-5718.

Favorable consideration is respectfully solicited.

Respectfully submitted,

Kendall I. Thiessen

## PETITION FOR EXTENSION OF TIME

Docket Number (Optional)  
04560-00011

In re Application of <b>Curtis</b>	
Application Number	09/720,570
For <b>Virtual Eprom Simulator Apparatus</b>	
Group Art Unit	Examiner

This is a request to extend the period for filing a reply in the above identified application.

The requested extension and appropriate non-small-entity fee are as follows  
(check time period desired):

<input checked="" type="checkbox"/> One month (37 CFR 1.17(a)(1))	\$ <u>110.00</u>
<input type="checkbox"/> Two months (37 CFR 1.17(a)(2))	\$ <u>420.00</u>
<input type="checkbox"/> Three months (37 CFR 1.17(a)(3))	\$ <u>950.00</u>
<input type="checkbox"/> Four months (37 CFR 1.17(a)(4))	\$ <u>1,480.00</u>
<input type="checkbox"/> Five months (37 CFR 1.17(a)(5))	\$ <u>2,010.00</u>

Applicant claims small entity status. See 37 CFR 1.27. Therefore the fee amount shown above is reduced by one-half, and the resulting fee is: \$

A check in the amount of the fee is enclosed.  
 Payment by credit card. Form PTO-2038 is attached.  
 The Commissioner has already been authorized to charge fees in this application to a Deposit Account.  
 The Commissioner is hereby authorized to charge any fees which may be required, or credit any overpayment, to Deposit Account Number 50-0792.

I have enclosed a duplicate copy of this sheet.

I am the  applicant/inventor  
 assignee of record of the entire interest. See 37 CFR 3.71.  
Statement under 37 CFR 3.73(b) is enclosed. (Form PTO/SB/96).  
 attorney or agent of record.  
 attorney or agent under 37 CFR 1.34(a).  
Registration number if acting under 37 CFR 1.34(a) \_\_\_\_\_.

**WARNING: Information on this form may become public. Credit card information should not be included on this form. Provide credit card information and authorization on PTO-2038.**

**OFFICE OF PETITIONS**

Dear Keith:

Hi, it has been a long time since I have seen you or anybody else at the former Nugame.

As you will hopefully recall, I helped draft and supervised the drafting of the original priority U.S. Provisional Application which was assigned along with foreign counterparts of the application to Aristocrat. I also met you very briefly when I visited Nugame's (back then) office, although we talked on the phone and faxed drafts back and forth.

As the application which we filed was a "provisional" patent application, no Declaration and Power of Attorney was necessary and was not filed. However, this application was assigned by you to Nugame, which, in turn, assigned it to Aristocrat Leisure Industries, which later changed its name to Aristocrat Technologies Australia Pty Ltd.

Subsequently, a PCT Application was filed by applicant Aristocrat Technologies Australia Pty Ltd.

As you know, sometime after the assignment of the provisional application from Nugame to Aristocrat, Nugame closed its doors and is now defunct, with no traceable phone number or office - although, I believe, Mike Farnham, the former CEO is still in Las Vegas.

I have been trying extensively to find you through searches in web databases, calls to the telephone company and directory assistance, as well as calling Farnham, who advised me that he is not aware of the whereabouts of the inventors.

However, just on the chance that I MAY find you, I am enclosing with this letter, a Declaration and Power of Attorneys for the U.S. Application (enclosed) which represents the "national phase" entry of the PCT application.

We need to have you sign and date the Declaration on page 2 and return it to us in the enclosed,

**Declaration of Shahan Islam**

I, Shahan Islam, hereby declare as follows:

1. I am a registered patent attorney in the United States Patent and Trademark Office under registration no. 32,507.
2. In 1998, I was a partner in the law firm of Friedman Siegelbaum handling intellectual property matters. Through an Australian associate, F.B. Rice & Company, with whom I had been working, I was put in contact with an Australian client, Aristocrat Leisure Industries Pty. Ltd. (which later changed its name to Aristocrat Technologies Australia Pty Limited) (hereinafter "Aristocrat"), who had requested that I prepare provisional applications for filing in the United States Patent and Trademark Office in connection with technology that they acquired from a company, Nugame, Inc. (hereinafter "Nugame"), located in the United States. In preparing the provisional applications I was in contact with a number of individuals who were former employees of Nugame and who had invented the technology. A provisional application was filed in the United States Patent Office on June 24, 1998. Copies of the application were forwarded to F. B. Rice.
3. At the beginning of 1999, I was in communication with F.B. Rice in connection with this case and they advised me that they were instructed by Aristocrat to file a PCT application in Australia, designating the United States. As the inventors were not available to F.B. Rice, they filed the application in Australia advising the Australian receiving office that the inventors were unavailable to sign the powers and the application was given a filing date.
4. Around April, 2000, I left the firm of Friedman Seigelbaum and began working as a partner with the firm of Rosenman & Colin LLP. At the time, Rosenman & Colin LLP did not have an intellectual property department. Thus, I had to establish my own routines with very limited

**RECEIVED**  
DEC 3 0 2003  
**OFFICE OF PETITIONS**

staff available. I set up a physical manual docketing system whereby my secretary would enter into a calendar due dates for responses to Office Actions for patent applications and monitor the calendar. As due dates approached my secretary would pull the files for my review and preparation of the required response. A sample page of such docket book is attached herewith as Exhibit A.

5. A few months after I arrived, I was contacted by F.B. Rice and given instructions to enter into the national phase on the PCT application no. PCT/AU99/00511. In December, 2000 I entered into the national phase by filing this case on December 21, 2000. Under my supervision Theodore Gottlieb, who was hired as a paralegal with Rosenman & Colin LLP, advised F.B. Rice of such entry with the attached letter, Exhibit B.
6. On March 12, 2001, the USPTO issued a notice of missing requirements indicating that there was no oath or declaration submitted. I advised F.B. Rice of this and F.B. Rice indicated that apparently they could not contact the inventors and requested our assistance in this matter. This was conveyed in a letter to me, a copy of which is attached hereto as Exhibit C.
7. In October, 2000, a new secretary, Cheryl Bajana, began working for me at Rosenman & Colin LLP. As she had no intellectual property training, I trained her with respect to her duties as an intellectual property secretary. During this time, Ms. Bajana began docketing, in the physical manual calendar that I had previously set up, due dates for responses to Office Actions received from the USPTO for patent applications I was handling. During my preparation of this declaration, I was advised that Katten Muchin Zavis Rosenman could no longer find the docket calendar for the year 2000 and accordingly I have no way of checking whether the notice of missing requirements was correctly docketed. However, to the best of my recollection, the notice of missing requirements was not brought to my attention for preparation of a response.
8. To the best of my recollection, I did not receive a notice of abandonment for this application. During preparation of this Declaration, I again personally reviewed the file I had set up for this application, which included the correspondence to and from the USPTO, and I did not find any notice of abandonment in the file.
9. During the period after October 2000, I regularly tried to contact the inventors to no avail. In my efforts to contact the inventors, I called the former CEO of Nugame, Mr. Michael J. Farnham, and he advised me that Nugame was no longer in existence and he had no way of contacting the inventors. I searched on the internet for contact telephone and address information for the inventors, but was unsuccessful in locating the inventors. However, throughout this time, I had the continued intention of finding the inventors in order to fulfill the requirements of the USPTO and maintain this application.
10. In September 2001, my firm, Rosenman & Colin LLP had brought in a patent group headed by Samson Helfgott, and included a number of

attorneys. They apparently had a computerized docketing system. They were very busy at the beginning transferring all of their work and maintaining their clients and were not readily available to address my needs. Although as a partner I retained responsibility for my own clients with respect to their patent matters, once they got their docketing system set up at Rosenman & Colin LLP, they indicated that they would be available to enter my docketing into their computerized system. Prior to this time, I would occasionally request that specific matters be docketed. I do not recall requesting any such special docketing for this application. Once the docketing system was set up at Rosenman & Colin LLP, as new matters came to my secretary for docketing, she would docket it in my manual docketing calendar, and was instructed to then submit the information to the docketing clerk for entry into the computerized docketing system. The docketing clerk would then enter the bibliographic information for the application as well as the docketing information, in the computerized system. Because of the volume of work, we only proceeded on a going forward basis. Accordingly, as my secretary received new correspondence from the USPTO and noted that there was a due date for response, she would make a docketing entry in my manual docketing calendar and a corresponding docketing entry would be made in the computerized docketing system. By way of example, attached as Exhibit D is a print-out of a docketed due date for one of the applications I handled corresponding to a docketing entry made for the same case in my docketing calendar, as shown in the copy of the relevant page of my 2002 docket calendar attached hereto as Exhibit E.

11. In approximately February 2002, the firm of Rosenman & Colin LLP merged with the Chicago law firm of Katten Muchin Zavis to become the law firm of Katten Muchin Zavis Rosenman ("KMZRosenman"). After the merger, I continued to have responsibility for the prosecution of this case.
12. During June, 2002, while reviewing other cases for Aristocrat, I came upon the present case and, in seeing the notice of missing requirements, became aware that the time for submitting a response, with extensions, had passed. I therefore submitted a petition to revive the case together with a petition to suspend the rules because we could not obtain the signatures of the inventors on the declaration. This act showed the applicant's and my intention not to abandon this application.
13. On October 22, 2002, a decision was issued on the petition. Under normal routines the decision would have come to my secretary and under normal routines, had she noticed that a due date for response was given, she would have entered it into the docket calendar on the due date for response. Thereafter, as the due date would approach my secretary would bring the file to me to remind me of the response coming due. At the time, I probably assumed that this matter was docketed since the last page of the decision indicated a two-month due date for filing a request for reconsideration of the petition. However, in preparation for this Declaration, I was given a copy of the 2002 docket calendar and on the date of December 22, 2002, the date on which the two-month due date should have been entered, there does not appear to be any entry for this application. Thus, it appears that the matter was not docketed. Enclosed

as Exhibit F is a copy of the page from the 2002 docket calendar on which a notation of the attorney docket number would have been entered had the response due date been docketed.

14. After receiving and reading the decision on the petition, I again tried to contact the inventors by sending Express Mail to the last known address of the inventors, Exhibit G, as was previously discussed in my declaration filed with the initial petition and the previously filed request for reconsideration. While I was waiting for a response to the Express Mail, I contacted the Petitions Office and was advised to wait for a response to the Express Mail or until they were returned as undeliverable before proceeding with filing a request for reconsideration.
15. Although the decision on the petition was not docketed, I knew that a request for reconsideration would be due at some point and kept this in mind. Because there was no docketing for the due date for the request for reconsideration, the application was never brought to me at a specific time for preparation and filing of the request for reconsideration. However, from time to time I would recall that some action was due for this application and would renew my efforts to contact the inventors. Occasionally my memory would be triggered as to this case when I received communications from F. B. Rice regarding other cases that we handled for them. During the period from the decision on the first petition until my departure, I also continued to wait for reply correspondence from the inventors where the my communications sent by Express Mail were not returned by the United States Postal Service.
16. In March, 2003, my secretary, Cheryl Bajana, left her employment at KMZ Rosenman. After Ms. Bajana left KMZ Rosenman, I did not have a secretary of my own, but was relying upon floater secretaries to assist me with secretarial services.
17. During March of 2003, I obtained an offer of employment at another company and during the months of March and April, 2003, I tried to "clean up" as many of my files as possible. It was then that I noticed that I still had been unable to address the inventorship issue with respect to this application. At that time, I requested assignment information from the Australian associate firm of F.B. Rice in preparation for drafting the request for reconsideration of the petition, as shown in my letter attached hereto as Exhibit H.
18. As the decision on petition had not been docketed, at no time did it come to my attention for a response due. However, throughout the period from filing until my departure from KMZ Rosenman, it was never my intention to abandon this application, nor was it the intention of the applicant, and I continuously worked on the inventorship issue to provide the necessary information to the USPTO.
19. At no time was I advised by F.B. Rice or Aristocrat to allow this application to go abandoned. To the best of my knowledge, this application was to be maintained active at all times.

20. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Re: National Phase Entry Application  
Based on International Patent Application PCT/AU99/00511  
Filed: December 21, 2000  
For: VIRTUAL EPROM SIMULATOR APPARATUS  
Your Ref.: 103048 Our Ref.: 3128/FBR

Dear Chris:

We are pleased to report that we have filed the above-identified application with the U.S. Designated/Elected Office (DO/EO/US) on December 21, 2000.

We have also filed a Preliminary Amendment, and an Information Disclosure Statement.

Enclosed is our invoice for services rendered and costs incurred. We will keep you advised as the application progresses.

Please also let us know about any references for Information Disclosure Statement purposes before, say, March 21, 2001.

Very truly yours,

Theodore A. Gottlieb

**CONFIRMATION**

**Former NuGame Properties, now Entered into the National  
Phase in USA**

Dear Shahan

We are awaiting your advice resulting from your investigation into the possibility of enlisting the support of the inventors for the various former NuGame US Provisional applications.

As we are receiving Notification of Missing Parts for these national phase applications, we are becoming concerned that we will not be able to meet the deadlines.

Would you please advise us what our best course of action will be in that event.

We look forward to hearing from you.

Yours sincerely

RECEIVED  
NOV 30 2003  
OFFICE OF PETITIONS

Dear Keith:

Hi, it has been a long time since I have seen you or anybody else at the former Nugame.

As you will hopefully recall, I helped draft and supervised the drafting of the original priority U.S. Provisional Application which was assigned along with foreign counterparts of the application to Aristocrat. I also met you very briefly when I visited Nugame's (back then) office, although we talked on the phone and faxed drafts back and forth.

As the application which we filed was a "provisional" patent application, no Declaration and Power of Attorney was necessary and was not filed. However, this application was assigned by you to Nugame, which, in turn, assigned it to Aristocrat Leisure Industries, which later changed its name to Aristocrat Technologies Australia Pty Ltd.

Subsequently, a PCT Application was filed by applicant Aristocrat Technologies Australia Pty Ltd.

As you know, sometime after the assignment of the provisional application from Nugame to Aristocrat, Nugame closed its doors and is now defunct, with no traceable phone number or office - although, I believe, Mike Farnham, the former CEO is still in Las Vegas.

I have been trying extensively to find you through searches in web databases, calls to the telephone company and directory assistance, as well as calling Farnham, who advised me that he is not aware of the whereabouts of the inventors.

However, just on the chance that I MAY find you, I am enclosing with this letter, a Declaration and Power of Attorneys for the U.S. Application (enclosed) which represents the "national phase" entry of the PCT application.

We need to have you sign and date the Declaration on page 2 and return it to us in the enclosed,

Mr. Keith Curtis

**KAREN MUCHIN ZAVIS ROSENMA  
DECLARATION AND POWER OF ATTORNEY**

As a below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below my name,

I believe I am the original, first and sole inventor (if only one name is listed below), or an original, first and joint inventor (if more than one inventor's name is listed below), of the subject matter which is claimed and for which a patent is sought on the invention entitled **VIRTUAL EPROM SIMULATOR APPARATUS**

**Title of Invention**  
the specification of which: \_\_\_\_\_ is attached hereto was filed on December 21, 2000 Application Serial No. 09/720,570

(for declaration not accompanying application)

with amendment(s) filed on \_\_\_\_\_  
(date(s) of all amendments)

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims, as amended by any amendment referred to above.

I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, §1.56(a).

I hereby claim foreign priority benefits under Title 35, United States Code, §119/§172 of any foreign application(s) for patent or inventor's certificate listed below and have also identified below any foreign application for patent or inventor's certificate having a filing date before that of the application on which priority is claimed:

EARLIEST FOREIGN APPLICATION(S), IF ANY, FILED PRIOR TO THE FILING DATE OF THE APPLICATION			
APPLICATION NUMBER	COUNTRY	DATE OF FILING (Day, Month, Year)	PRIORITY CLAIMED UNDER 35 U.S.C. 119/172

**Declaration of Cheryl Bajana**

I, Cheryl Bajana, hereby declare as follows:

1. During September 2000, I began my employment at the law firm of Rosenman & Colin LLP and during October 2000 I was assigned as a secretary to work for Mr. Shahan Islam, a partner handling intellectual property matters. I had no previous experience in connection with intellectual property matters and was instructed by Mr. Islam in connection with administrative procedures concerning his work.
2. During my employment as Mr. Islam's secretary, one of the procedures established was for me to receive and open all mail sent to Mr. Islam from the USPTO. When a due date for response was noted on the correspondence from the USPTO, I was to enter the information into a physical calendar indicating the due date for the response. Thereafter, I was to bring the file with the communication to Mr. Islam. Attached hereto as Exhibit A is a page from one of the physical calendars showing entries that I made for due dates. On a regular basis, I was also to review the physical docketing calendar for upcoming due dates and for each item coming due I was to bring the relevant file to Mr. Islam for preparation of the response coming due.
3. In September 2001, Mr. Samson Helfgott and a group of other patent attorneys joined the firm of Rosenman & Colin LLP. At that time our intellectual property group handling patents had expanded. I became aware that they had a computerized docketing system to be maintained by a docketing clerk, that was being installed on the firm's computer network. From about February 2002 on, I was asked that each time I entered a docket number in the physical manual docketing calendar that I maintained for Mr. Islam, I should also give the file and correspondence to the docketing clerk for entry of the application information in the computerized docketing system and for docketing of the due date for the response to the correspondence.

4. Attached as Exhibit B is a decision on petition dated October 22, 2002 which apparently arrived at Rosenman & Colin LLP for Mr. Islam. At present I do not recall receiving the decision on the petition and I do not recall whether or not I entered any docketing information for this on the physical docketing calendar. Attached as Exhibit C is a copy of the page from the physical docketing calendar for the due date for the filing of a request for reconsideration of the decision on the petition. The absence of my entry for such due date indicates that no docket entry was made.
5. Generally, as I received correspondence from the USPTO, I would always look at the first page which normally contained a due date for filing of a response, and then I would use that as the basis for my entry into the docketing system (including making a notation of the due date in my physical docketing calendar and forwarding the file and correspondence to the docketing clerk for entry and docketing, after the implementation of the computerized docketing system at Rosenman & Colin LLP). I note that in this case, the document had multiple pages and near the end of the last paragraph, on the last page, imbedded within the text is a due date for response. As I normally took the due date from the first page of such communication from the U.S. Patent and Trademark Office, it may very well have been that I did not read through the entire multiple-page document, and therefore did not find the due date embedded within the last paragraph. As I did not make an entry of the due date for the response in the physical manual docketing calendar, I would not have forwarded the file and correspondence to the docketing clerk for entry into the computerized docketing system. Furthermore, as no entry was made into the physical manual docketing calendar, I would have had no reason to bring this case to the attention of Mr. Islam when the actual due date came about.
6. I recall this case as being one in which Mr. Islam continuously tried to contact the inventors. I recall regularly sending out mail, looking up information, and trying to obtain the contact information for the inventors. I specifically recall Mr. Islam's concern about his inability to obtain the inventors contact information.
7. I do not recall ever receiving any correspondence from Aristocrat or F.B. Rice instructing us to abandon this application. To the best of my knowledge, this application was to be maintained active at all times.
8. In March 2003, I left the employ of KMZ Rosenman.
9. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

DECISION ON  
PETITIONS UNDER  
37 CFR 1.183  
AND  
37 CFR 1.137(b)

This is a decision on applicants' "Petition For Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(b)," filed in the United States Patent and Trademark Office (USPTO) on 23 July 2002.

#### BACKGROUND

On 24 June 1999, applicants filed international application PCT/AU99/00511, which claimed a priority date of 24 June 1998. A copy of the international application was communicated to the United States Patent and Trademark Office (USPTO) from the International Bureau on 29 December 1999. A Demand for international preliminary examination, in which the United States was elected, was filed on 24 January 2000, within nineteen months from the priority date. Accordingly, the thirty-month period for paying the basic national fee in the United States expired at midnight on 26 December 2000 (24 December 2000 was a Sunday and 25 December 2000 was a holiday).

On 21 December 2000, applicants filed a submission for entry into the national stage in the United States which was accompanied by, *inter alia*, the U.S. Basic National Fee.

On 12 March 2001, the USPTO mailed a Notification of Missing Requirements (Form PCT/DO/EO/905) indicating, *inter alia*, that an oath or declaration of the inventors in compliance with 37 CFR 1.497(a)-(b) was required.

On 30 May 2002, the Office mailed a Notice of Abandonment indicating the application went abandoned for failure to timely reply to the Notice to File Missing Parts mailed 12 March 2001.

On 23 July 2002, applicants submitted the instant petitions under 37 CFR 1.137(b) and 37 CFR 1.183, which were accompanied by a statement from Shahan Islam.

**DISCUSSION**

A petition to revive an abandoned application under 37 CFR 1.137(b) must be filed without intentional delay from the time the application became abandoned and/or applicant first became aware of the abandoned status of the application. A petition under 37 CFR 1.137(b) must be accompanied by (1) a statement that the entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition was unintentional, (2) the required reply, (3) the petition fee required by law (37 CFR 1.17(m)), and (4) a terminal disclaimer and fee (if the international application was filed prior to June 8, 1995).

Applicants have made the required statement and have paid the petition fee. A terminal disclaimer is not required as the international application was filed on or after 08 June 1995. However, applicants' reply is deficient. The required reply is an oath or declaration in compliance 37 CFR 1.497 and if the inventors refuse to execute the oath or declaration or cannot be reached after a diligent effort, as alleged, a petition under 37 CFR 1.47(b). Applicants have filed a petition for suspension of the rules under 37 CFR 1.183. Applicants have not explained why a petition under 37 CFR 1.47(b) would not satisfy their needs.

**CONCLUSION**

For the above reasons, applicants' petition under 37 CFR 1.137(b) is **DISMISSED**, without prejudice.

Applicants' petition under 37 CFR 1.183 is **DISMISSED** without prejudice.

The application remains **ABANDONED**.

If reconsideration on the merits of this petition is desired, a proper response must be filed within TWO (2) MONTHS from the mail date of this decision. Any reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.137(b)."

Any further correspondence with respect to this matter should be addressed to the Assistant Commissioner for Patents, Box PCT, Washington, D.C. 20231, with the contents of this letter marked to the attention of the Office of PCT Legal Administration.

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE**

**Inventor** : **Keith Edwin Curtis, et al.**  
**Title** : **VIRTUAL EPROM SIMULATOR APPARATUS**  
**Serial No.** : **09/720,570**  
**Filed** : **December 21, 2000**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**Declaration of Samson Helfgott**

I, Samson Helfgott, hereby declare as follows:

1. I am a registered patent attorney in United States Patent and Trademark Office under Registration No. 23,072.
2. Prior to September 2001, I was an officer in the law firm of Helfgott & Karas, P.C., located at 350 Fifth Avenue, New York, NY. On September 1, 2001, Helfgott & Karas, P.C. joined the firm of Rosenman & Colin LLP, moving with all of its personnel, files, clients, and other related material to establish a patent section within the firm of Rosenman & Colin LLP. I joined Rosenman & Colin LLP as a partner.
3. Prior to our arrival at Rosenman & Colin LLP, Mr. Shahan Islam had previously joined the firm and as a partner of the firm was handling intellectual property matters on behalf of his clients.
4. At Helfgott & Karas, P.C. we had a computerized docketing system created by Computer Packages Inc. (CPi) in which was entered and maintained bibliographic information for all of our intellectual property matters. The CPi system contained an electronic docketing system in which docketing for all of the database entries was maintained. Using the CPi system, we generated docket reports on a monthly basis for each attorney. The docketing reports noted all due dates for responses to Office Actions from the USPTO, which were due in the coming month. The CPi system implemented at Helfgott & Karas, P.C. was one that has been widely accepted and is a standard utilized throughout the United States by major corporations and law firms.
5. Upon our entering into Rosenman & Colin LLP, their Information Technology (IT) staff worked with CPi to transfer the database of information from the CPi system utilized at Helfgott & Karas, P.C. onto the Rosenman & Colin LLP's computer network environment. Rosenman & Colin LLP also worked with CPi to make improvements to the CPi system that was being transferred. There was an extended transition period from our entering Rosenman & Colin LLP until the CPi system was fully operational on Rosenman & Colin LLP's computer

network in February, 2002. During the transition period, CPi system utilized at Helfgott & Karas, P.C. was maintained on a stand-alone computer and information compared against information in the CPi system being implemented on Rosenman & Colin LLP's computer network to be sure all systems and reports were operative. At the end of the transition period, all docketing reports for attorneys generated from the transferred system

6. Beginning with February, 2002, I began addressing the entry and docketing of information for the patent cases of Mr. Shahan Islam's clients, for which he maintained a manual docketing system. Mr. Islam's secretary, Ms. Cheryl Bajana, was instructed to continue to maintain her manual docketing calendar, and after completing the entries in her docketing calendar, she was instructed to forward any correspondence she received from the USPTO to our docketing department for entry of the docketing information also in the CPi system. As the docketing department received correspondence from the USPTO for entry of docketing information in the CPi system on the cases, the bibliographical information for the patent applications handled by Mr. Islam would also be entered, unless it was previously entered.
7. Attached as Exhibits A is a copy of a page from Mr. Islam's manual docketing calendar. Attached as Exhibit B is a print-out from the CPi docketing system showing the same item as entered in Mr. Islam's manual docketing calendar.
8. At the end of February 2002, Rosenman & Colin LLP merged with the Chicago law firm of Katten Muchin Zavis to become the law firm of Katten Muchin Zavis Rosenman ("KMZ Rosenman"). The responsibility for clients remained the same so that Mr. Islam still retained responsibility for all the clients he previously had and the cases he was handling. Essentially, the working relationship that previously existed under Rosenman & Colin LLP continued under the new merged KMZ Rosenman firm.
9. Around March 2003, Mr. Islam advised me that he would be leaving KMZ Rosenman for another position. He indicated that he was reviewing his cases and asked me to reassign these cases to other attorneys within our patent department. At the time, he indicated he was still trying to complete certain matters before he left.
10. After Mr. Islam left KMZ Rosenman on April 11, 2003, I arranged for our clerical staff to go through all the files in his office and in his file cabinets and to double check to make sure that they were entered into our CPi system. To the extent cases were not yet entered into our system, we then did so. There were quite a number of cases which we found had not been entered into our CPi system and were newly entered as they were found. This procedure took approximately two months as there were a considerable number of files to go through, check the status with the USPTO's database, enter the bibliographic information in the CPi system, enter due dates, contact clients to advise them of new attorney assignments, and other administrative matters that were necessary to transfer responsibility and maintain control of these files. Following Mr.

Ser. No. 09/720,570  
Page 3 of 3

Islam's departure from KMZ Rosenman, the general maintenance department of our firm cleared the files, records, and office supplies contained in Mr. Islam's office as well as his secretarial area in order to prepare the room for occupancy by another attorney. In doing so, some of the calendars and other records kept by Mr. Islam and/or his secretary were apparently disposed of as the maintenance department personnel were not familiar with the particulars of these items and considered them as old calendars or old records.

11. During June 2003, we were in contact with the Australian associates, F.B. Rice in trying to get a full list of the cases that we were handling for them. As a result of this review, we identified a number of cases, including the present one on which the file contained the decision on petition dated October 22, 2002. Under instructions of Aristocrat Technologies Industries Pty. Ltd. (hereinafter "Aristocrat"), we began collecting the necessary assignment documents, transfer documents, and other evidence needed for us to prepare suitable petitions to attempt revival of these cases. In July 2003, the petitions were filed by the new attorney of record for this application, Mr. Kendall Thiesser.
12. From the time of Mr. Islam's departure from KMZ Rosenman in April, until the petitions were filed, we worked diligently in identifying and individually reviewing each of the files from Mr. Islam, entering the information in the CPI system, following up on each of the cases and with respect to various of Aristocrat's cases that had unintentionally gone abandoned, including the present case, obtaining the necessary documentation and filing the necessary petitions required for revival of the cases.
13. From the time of our discovery of the unintentionally abandoned Aristocrat cases, including the current application, it has been my understanding that the applications were never intended to be abandoned. In my review of the file for this application and the other applications of the client which had gone abandoned, and which Mr. Islam had continuously worked on in attempting to resolve the inventorship issues Aristocrat applications, I found that the applications were unintentionally abandoned. I did not find any indication in the file of any deliberate action by anyone to abandon the Aristocrat applications, including this application.
14. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

**Title** : **VIRTUAL EPROM SIMULATOR APPARATUS**  
**Serial No.** : **09/720,570**  
**Filed** : **December 21, 2000**

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

**Declaration of Satnarine Seonarain**

I, Satnarine Seonarain, hereby declare as follows:

1. In August 2001, I began working as a docket clerk at the firm of Helfgott & Karas, P.C. Since that period of time, I was responsible for entry of all bibliographic information and docketing information for all patent applications into a computerized docketing system created by Computer Packages Inc. ("CPi").
2. I worked with CPi personnel in making sure that the database was accurate, and on a regular basis I printed out docket reports to be given to individual attorneys containing docketing information on cases where a response was due in the upcoming month. Attached as Exhibit A is a sample of a docket report prepared for a specific attorney (with sensitive/confidential information redacted). Attached as Exhibit B are sample of print-outs for some patent records as generated by the CPi system showing the docketing entered for the applications and the bibliographic information entered.
3. In September 2001, the firm of Helfgott & Karas, P.C. joined the firm of Rosenman & Colin LLP and I along with all the other personnel of Helfgott & Karas, P.C. moved to the offices of Rosenman & Colin LLP. At that time the CPi system was being converted onto Rosenman & Colin LLP's computer network.
4. When I arrived at Rosenman & Colin LLP, the CPi system was not yet fully operational on Rosenman & Colin LLP's computer network – there were report generators and other requirements that needed to be completed for the CPi system to be fully operational on the Rosenman & Colin LLP's computer network. The transitional period from the move to Rosenman & Colin LLP until the CPi system was fully operational and I was satisfied with the system lasted for a few months following our move to Rosenman & Colin LLP. During this transition period, I continued to utilize both the old CPi system, which was maintained on a stand-alone computer, and the

new CPi system on Rosenman & Colin LLP's computer network, in order to be sure that no data was lost. I compared printouts from both systems to ensure that the records as on the new CPi system were accurate. It was not until February 2002, that I was satisfied that the new system could be fully utilized and we then discontinued use of the old CPi system on the stand-alone computer.

5. Once the CPi system was fully operational at Rosenman & Colin LLP, I was instructed to begin entering information on the patent cases for the clients of Mr. Shahan Islam. As there were a vast number of cases, I was usually given docketing information from Mr. Islam or his secretary, Ms. Cheryl Bajana, as they received correspondence from the United States Patent and Trademark Office (USPTO) for the individual cases. When I received such docketing information, I would pull the file for the application and enter the bibliographic information for the application into the CPi system, if the information had not yet been entered, and then I would docket the application for response due to the correspondence received from the USPTO. By way of example attached as Exhibit C is a print-out for one of Mr. Islam's cases showing the docketed due dates. The entry in the CPi system corresponds to the entry made in the docketing calendar shown to me as Ms. Bajana's docketing calendar for patent applications handled by Mr. Islam.
6. In the middle of April, 2003, when Mr. Islam left the firm (now named Katten Muchin Zavis Rosenman following a merger with another firm in 2002), we began to review all of the files for the patent applications handled by Mr. Islam. Files were located in Mr. Islam's office, his file cabinets, the local active storage room and the other storage areas of the firm containing patent files. On a case by case basis, I began reviewing all of the files for the patent applications handled by Mr. Islam. For those applications for which bibliographic information and docketing information had not yet been entered in the CPi system, I began entering the bibliographic information and entered any docketing information for any outstanding Office Actions. To do so, it was necessary to review each file to determine its current status, whether there was any docketing information required to be entered, verifying the current status with the USPTO, and being sure that the information being entered was accurate and verifiable. Because of the large number of cases involved, and my existing workload, such entry and review was at a slow pace, but was actively pursued each day. Of course, as new Office Actions came in for applications formerly handled by Mr. Islam, the bibliographical and docketing information for that application was immediately entered and the case forwarded to a patent attorney for prosecution.
7. In June 2003, I was given the present case for entry into the database. The bibliographic information as was entered at that time included docketing information. Attached as Exhibit D is a current printout showing information contained in the CPi system's database relating to this case.
8. I do not recall anyone ever giving me the decision on the petition dated October 22, 2002 for docketing entry in connection with this application. The CPi system did not have any entries for docketing in connection with this case. The file jacket also does not include any of my notations for

docketing. In view of this, I do not believe I received the decision on the petition from either Mr. Islam or Ms. Bajana for entry of the docketing information in the CPi system.

9. I further declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code, and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

Date: 11/25/03.

<i>Patent: BREAK-AWAY CLUCHT SYSTEM</i>

Patent Due Date List By Date	
01-Oct-2003	To: 31-Oct-2003
Due Date	01-Oct-2003

Due Date Indicator	Action Due Action Type	Client-Matter/SubCase Country	Status Client	App Number Pat Number	App Date Iss Date	Atty
04-Oct-2003	Did You Report O/A To Client US-3 Month Office Action	032878-87728 / United States of America	Pending	09/ [REDACTED]	29-Sep-2000	HW

*Related Case: 3094*

*Old Client Code: FLK*

**Patent: METHOD AND APPARATUS FOR CONTROLLING A SEMICONDUCTOR FABRICATION TEMPERATURE**

04-Oct-2003	6 Month Final	043370-88360 / United States of America	Pending	09/ [REDACTED]	18-Oct-2001	HW
Final	US-3 Month Office Action	INSTILE STONE CORP.				

*Related Case: 3051*

*Old Client Code: ISC*

**Patent: METHOD AND APPARATUS FOR CREATING MOSAIC STRUCTURES**

04-Oct-2003	Application Status Check	056730-00056 / United States of America	Pending	10/ [REDACTED]	04-Apr-2002	HW
Due Date		NAOMI ASSIA LAW OFFICES				

*Related Case: 3346*

*Old Client Code: ASSIA*

**Patent: DIGITAL OFFSET PRINTING REGISTRATION**

04-Oct-2003	Chapter II Due (Nat'l Filing)	100502-14715 / Patent Cooperation Treaty	Pending	PCTUS01/10920	04-Apr-2001	HW
Due Date		ISSAC WURZBURGER			DD	

*Related Case: 18124*

*Old Client Code: MULR*

**Patent: STETHOSCOPE SHIELD DISPENSER**

04-Oct-2003	Tax 3.5	100700-09111 / United States of America	Granted	09/ [REDACTED]	27-Jan-1999	HW
Due Date		HERRERO & ASOCIADOS		6,044,754	04-Apr-2000	

*Related Case: 15817*

*Old Client Code: HERR*

**Patent: COFFEE MAKER FILTER HOLDER SYSTEM**

Sunday, October 26, 2003

11-Oct-2003 Due Date	Did You Report O/A To Client US-3 Month Office Action	100759-00050 / United States of America	Pending DR. REINHOLD COHN & PARTNERS	10 [REDACTED]	26-Sep-2002	HW

*Related Case: 19973*

*Old Client Code: COHN*

*Patent: AIR LAUNCH OF PAYLOAD CARRING VEHICLE FROM A TRANSPORT AIRCRAFT*

Due Date Indicator	Action Due Action Type	Client-Matter/ Country	Status	App Number Pat Number	App Date Iss Date	Atty's
11-Oct-2003 Due Date	INSTRUCTIONS TO Follow Up Date INSTRUCTIONS TO AGENT DUE	100809-162239 / Taiwan	Pending Sony Computer Entertainment Inc.	90 [REDACTED]	27-Feb-2001	HW DD

*Related Case: 18068*

*Old Client Code: SCED*

*Patent: ELECTRONIC DEVICE AND SHIELD*

Due Date Indicator	Action Due Action Type	Client-Matter/ Country	Status	App Number Pat Number	App Date Iss Date	Atty's
11-Oct-2003 Due Date	Deferred Exam Final	100809-162299 / Malaysia	Pending Sony Computer Entertainment Inc.	PI [REDACTED]	11-Oct-2001	HW DD

*Related Case: 18681*

*Old Client Code: SCED*

*Patent: OPTICAL PICKUP POSITION CONTROL METHOD*

Due Date Indicator	Action Due Action Type	Client-Matter/ Country	Status	App Number Pat Number	App Date Iss Date	Atty's
11-Oct-2003 Due Date	REQUEST FOR EXAM DUE Final	100809-162299 / Malaysia	Pending Sony Computer Entertainment Inc.	PI [REDACTED]	11-Oct-2001	HW DD

*Related Case: 18681*

*Old Client Code: SCED*

*Patent: OPTICAL PICKUP POSITION CONTROL METHOD*

Due Date Indicator	Action Due Action Type	Client-Matter/ Country	Status	App Number Pat Number	App Date Iss Date	Atty's
11-Oct-2003 Due Date	3 Month Due Date US-3 Month Office Action	310105-00050 / United States of America	Pending BECK & ROSSING	10 [REDACTED]	20-Jun-2002	HW

*Related Case: 3340*

*Old Client Code: BECK*

*Patent: METHOD AND DEVICE FOR DETECTION OF SUBSTANCES WITHIN VITAL TISSUE*

Due Date Indicator	Action Due Action Type	Client-Matter/ Country	Status	App Number Pat Number	App Date Iss Date	Atty's
12-Oct-2003 Due Date	FOLLOW UP ON POSTCARD FOLLOW UP ON POSTCARD	100799-00080 / A United States of America	Pending KAMODA INTERNATIONAL, P.A.O.	12-Aug-2003	HW	

*Related Case: 19004*

*Old Client Code: KAM*

*Patent: ROTATION SUPPORT APPARATUS FOR COMPRESSOR PULLEY*

Sunday, October 26, 2003

Patent Due Date List By Date

01-Oct-2003 To 31-Oct-2003
